Construction Notice
Remington Substation Expansion and Transmission Line Relocation Project

To whom it may concern:

Duke Energy Ohio, Inc. is proposing a project which involves the expansion of Remington Substation and the replacement of a steel lattice tower with two steel monopoles on 138-kV transmission circuits F5487 and F9482 in Symmes Township, Hamilton County, Ohio. Remington Substation is located at the northwest corner of Glendale-Milford Road and Quality Drive. The Project will include expansion of the existing approximately 1.76-acre substation fence by approximately 0.22 acre (14%) to the northeast. The steel lattice tower adjacent to the substation fence expansion will be replaced with two steel monopoles with new conductor installed from the take-off structures for each circuit within the substation to the two proposed new steel monopoles installed outside of the substation.

In accordance with O.A.C. 4906-1-01 Appendix A, we are required to prepare this Construction Notice for the Ohio Power Siting Board and, in compliance with O.A.C. 4906-6-07, we are hereby providing you with a link to an electronic copy.

A copy of the application has been placed at the offices of the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215. The Application is also available on the Duke Energy Ohio website, at: www.duke-energy.com/remington and on the Ohio Power Siting Board's website, at: <https://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=23-94&x=0&y=0>.

Cordially,

Duke Energy Ohio, Inc.
