

# Where do Townships get their money from?

- Townships generate money mostly from property taxes in the form of levies and keep those funds in separate accounts – Fund Accounting.
- In Symmes Township, there are 9 property tax levies that generate 15 mills which equates to 5.8 million dollars.
- In simple terms, for every dollar you pay in property taxes, .15 cents of that dollar gets diverted to Symmes Township where most of your services are provided.
